

@TNTippingBot

on Telegram, using Turtle Network

INTRODUCTION

@TNTippingBot is a chatbot, powered by the Turtle Network blockchain, designed to provide cryptocurrency-related services through an instant messaging (IM) interface on the Telegram Messenger application.

@TNTippingBot provides a cryptocurrency *Wallet*, *Tipping* capability using blockchain technology and instant market *Trading* via a Decentralized Exchange (DEX) on a convenient and easy to use platform.

VALUE PROPOSITION

Easy Tip & Send: Saves time & effort;

- Telegram, a convenient platform utilized for Instant messaging (IM) on web / mobile.
- Tipbot uses the latest in blockchain technology to tip & trade.
- Any Telegram group admin can insert @TNTippingBot into a group, no limitations.
- Tip & Trade multiple currencies incl BTC, ETH & more.

User Experience;

- Low-Cost, Simple and Convenient.
- Turtle Network wallet & address automatically created.
- No registration.
- Tipping done via a Telegram chat.
- Ease of use: no need to learn a new interface.

Tipping;

- One command tip: `/tntip @user 1 TN`
- Menu: easy menu selection of commands.
- Tip a user with any Turtle Network asset within a Telegram group.
- Low Fees: 0.05TN p/tip.
- User manual supplied for bot commands, use `/tntips`.

Trading;

- 'Instant Market Trade' by sending chat command `/tntrade` to the bot. All trades performed on 'DEX'.

Wallet;

- Versatile: Multi-currency wallet.
- Send / Receive coins.
- Withdraw to <https://client.turtlenetwork.eu>.
- Request (Backup) & Import Private Key.

Security;

- 2FA: Build-in to Telegram.
- Private Key: You own it, linked to Telegram account.
- *Note:* Be Safe, it's a tipping wallet, backup private keys, don't store large amount of funds, keep private key, phone number & username safe.

6. Feature Roadmap;

- 2018 Q4: `/tntrade`: instant market trades
- 2018 Q4: `/tntiptop50`: tipping top 50
